SAFETY DATA SHEET

Date of Issue/Date of Revision: JANUARY 1, 2024

Version 1

SECTION 1. IDENTIFICATI	ON
Product Name	: Intumescent Fire Retardant Paint
Product Code	: 2020A Black
Other Means of Identification	: Not Available
Product Type	: Liquid
Relevant Identified uses of the s	ubstance or mixture and uses advised against
Product Use	: Industrial applications.
Use of the substance/ Mixture	: Coating. Paints, Painting-related materials
Use advised against	: Not Applicable
Supplier	: Flame Control Coatings 4120 Hyde Park Boulevard Niagara Falls, NY 14305
Emergency Telephone	: 800-535-5053
Number	352-323-3500 (International)
Technical Phone Number	: 716-282-1399 (8 am – 5 pm EST)
CECTION 2 Haranda Idaa	· · · ·

SECTION 2. Hazards Identification

Classification of the

Substance or mixture	
GHS Label Elements	
Hazard Pictograms	
Signal Word	: Warning
Hazard Statements	: May be harmful if swallowed. Causes mild skin and eye irritation.
Precautionary Statements	
Prevention	: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Do not breathe vapor.
Response	: Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention.
Storage	: Store locked up.

: Acute toxicity (Oral) Cat.4, Skin irritation Cat.3, Eye irritation Cat. 2B).

SECTION 2. Hazards Identification (Con't)		
Disposal	: Dispose of contents and container in accordance with all local, regional, national and international regulations.	
Supplemental Label Elements	: Avoid contact with skin and clothing. Wash thoroughly after handling. Emits toxic fumes when heated.	
Hazards not Otherwise Classified	: Prolonged or repeated contact may dry skin and cause irritation.	
SECTION 3. Composition/Infe	ormation on Ingredients	

Substance/Mixture

Product name

: Mixture

: Intumescent Fire Retardant Paint

Ingredient Name	%	CAS Number	
Pentaerythritol	5 - 10	115-77-5	
Ethanediol	0.1 - 1	107-21-1	

SUB codes represent substances without registered CAS numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the suppler and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8

SECTION 4. First Aid Measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occurs during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

Description of Necessary First Aid Measures

Eye Contact	: Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.		
Inhalation	: Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.		
Skin Contact	: Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.		
Ingestion	: If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.		
Most Important Symptoms/Effects, Acute and Delayed			
Potential Acute Health Effects			
Eye Contact	: No known significant effects or critical hazards.		
Inhalation	: No known significant effects or critical hazards.		
Skin Contact	: Defatting to the skin. May cause skin dryness and irritation		

Product Code: 20-20A Black Product Name: Intumescent Fire Retardant Paint

SECTION 4. First Aid Measures (Con't)			
Ingestion	: No known significant effects or critical hazards.		
Over-Exposure Signs/Symptoms			
Eye Contact	: No specific data.		
Inhalation	: No specific data.		
Skin Contact	: Adverse symptoms may include the following: Irritation Dryness Cracking		
Ingestion	: No specific data		
Indication of Immediate Medical	Attention and Special Treatment Needed, if Necessary		
Notes to Physician	: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.		
Specific Treatments	: No specific treatment		
Protection of First-Aiders	: No action shall be taken involving any person risk or without suitable training. If may be dangerous to the person providing aid to give mouth- to-mouth resuscitation.		

See toxicological information (Section 11)

SECTION 5. Fire-Fighting	g Measures		
Extinguishing Media			
Suitable Extinguishing Media	: Use an extinguishing agent suitable for the surrounding fire.		
Unsuitable Extinguishing Medi	a : None known.		
Specific Hazards Arising From the Chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.		
Hazardous Thermal Decomposition products	: Decomposition products may include the following materials: Carbon Dioxide Nitrogen Oxides Carbon Monoxide Metal Oxide/Oxides		
Special Protective Actions for Fire-Fighters	: Promptly isolate the scent by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.		
Special Protective Equipment for Fire-Fighters	 Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. 		
Personal Precautions, Protectiv	e Equipment and Emergency Procedures		
For Non-Emergency: No action shall be taken involving any personal risk or with suitable training.Personnel: Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.			

SECTION 6. Accidental Release Measures : If specialized clothing is required to deal with the spillage, take note of any **For Emergency** Responders information in Section 8 on suitable and unsuitable materials. See also the information in "for non-emergency personnel. : Avoid dispersal of spilled material and runoff and contact with soil, waterways, **Environmental** drains and sewers. Inform the relevant authorities if the product has caused **Precautions** environmental pollution (sewers, waterways, soil or air). Methods and Material for Containment and Cleaning Up **Small Spills** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. **Large Spills** : Stop leak if with risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

SECTION 7. Handling and Storage

Conditions for Safe Storage : Do not store below the following temperatures: 5°C (41°F). Store in accordance including any with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

SECTION 8. Exposure Controls/Personal Protection

Control Parameters

Occupational Exposure Limits

Ingredient Name	Exposure Limit
Pentaerythritol	OSHA PEL (United States, 2/2013) TWA: 5 mg/m ³ 8 hours. Form: Respirable fraction TWA: 15 mg/m ³ 8 hours. Form: Total Dust ACGIH TLV (United States, 4/2014) TWA: 10 mg/m ³ 8 hours
Ethanediol	ACGIH TLV (United States, 4/2014) C: 100 mg/m ³ From: Aerosol

SECTION 8. Exposure Controls/Personal Protection (Con't)

^	Key to Abbreviations			
C = Ceiling Limit F = Fume IPEL = Internal Permissible Expos OSHA = Occupational Safety and H R = Respirable		S = Potential Skin Absorption SR = Respiratory Sensitization SS = Skin Sensitization STEL = Short Term Exposure Limit Values TD = Total Dust TLV = Threshold Limit Value TWA = Time Weighted Average		
Consult Local Authorities for Acceptab	le Exposure Limits			
Recommended Monitoring Procedures	atmosphere or biological monitoring effectiveness of the ventilation or ot use respiratory protective equipment	her control measures and/or the necessity to nt. Reference should be made to appropriate national guidance documents for methods for		
Appropriate Engineering Controls	local exhaust ventilation or other en	: If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.		
Environmental Exposure	checked to ensure them comply with protection legislation. In some cases	process equipment should be Controls n the requirements of environmental s, fume scrubbers, filters or engineering nent will be necessary to reduce emissions to		
Individual Protection Measures	-			
Hygiene Measures	before eating, smoking and using th period. Appropriate techniques sho contaminated clothing. Wash conta	oughly after handling chemical products, e lavatory and at the end of the working ould be used to remove potentially minated clothing before reusing. Ensure that rs are close to the workstation location.		
Eye/Face Protection	: Safety glasses with side shields.			
Skin Protection				
Hand Protection	should be worn at all times when ha indicates this is necessary. Consider manufacturer, check during use that properties. It should be noted that t may be different for different glove	es complying with an approved standard ndling chemical products if a risk assessment ring the parameters specified by the glove t the gloves are still retaining their protective he time to breakthrough for any glove material manufacturers. In the case of mixtures, protection time of the gloves cannot be		
Body Protection		he body should be selected based on the task ved and should be approved by a specialist		
Other Skin Protection		tional skin protection measures should be formed and the risks involved and should be lling this product.		

SECTION 8. Exposure Controls/Personal Protection (Con't)

Respiratory Protection : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate certified respirators. Use a properly fitted, air-purifying or air-fed r respirator complying with an approved standard if a risk assessment indicates this is necessary.

SECTION 9. Physical and Chemical Properties

<u>Appearance</u>	
Physical State	: Liquid
Color	: Black
Odor	: Mild Odor
Odor Threshold	: Not Available
рН	: 8.0 to 11.5
Melting Point	: Not Available
Boiling Point	: 100°C (>200°F)
Flash Point	: Not Available
Material Supports Combustion	: Yes
Auto-Ignition Temperature	: Not Available
Decomposition Temperature	: Not Available
Flammability (Solid, Gas)	: Not Available
Lower and Upper Explosive	: Not Available
(Flammable) Limits	
Evaporation Rate	: 0.34 (Butyl Acetate = 1)
Vapor Pressure	: 2.3 kPa (17.4 mm Hg) (Room Temperature)
Vapor Density	: >1 (Air = 1)
Relative Density	: 1.3
Density	: 10.8 lb/gal
Solubility in Water	: Dilutable
Partition Co-efficient:	: Not Available
N-Octanol/Water	
Viscosity	: Kinematic [40°C (104°F)]: >0.21 cm²/s (>21 cSt)
% Volatile (volume)	: 54
% Solid (w/w)	: 59
Coating VOC	: 45 g/L
Material VOC	: 22 g/L

SECTION 10. Stability and Reactivity			
Reactivity	: No specific test data related to reactivity available for this product or its ingredients.		
Chemical Stability	: The product is stable		
Possibility of Hazardous Reactions Conditions to avoid	 Under normal conditions of storage and use, hazardous reactions will not occur. When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in Sections 7 and 8. 		
Incompatible Materials	: Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, and strong acids		
Hazardous Decomposition	: Decomposition products may include the following materials: carbon Products monoxide, carbon dioxide, smoke, oxides of nitrogen.		

SECTION 11. Toxicological Information

Information on toxicological Effects

Acute Toxicity

Product/Ingredient Name	Results	Species	Dose	Exposure
Pentaerythritol	LD50 Oral	Rat	18500 mg/kg	-
Ethanediol	LD50 Dermal LD50 Oral	Rabbit Rat	9.53 g/kg 4700 mg/kg	-

Conclusion/Summary	: There is no data available on the mixture itself.
Irritation/Corrosion	
Conclusion/Summary	
Skin	: There is no data available on the mixture itself.
Eyes	: There is no data available on the mixture itself.
Respiratory	: There is no data available on the mixture itself.
<u>Sensitization</u>	
Conclusion/Summary	
Skin	: There is no data available on the mixture itself.
Respiratory	: There is no data available on the mixture itself.
<u>Mutagenicity</u>	
Conclusion/Summary	: There is no data available on the mixture itself.
Carcinogenicity	
Conclusion/Summary	: There is no data available on the mixture itself.
Reproductive Toxicity	
Conclusion/Summary	: There is no data available on the mixture itself.
Teratogenicity	
Conclusion/Summary	: There is no data available on the mixture itself.
<u>Specific Target Organ Toxicity</u> <u>(Single Exposure)</u>	: Not available

SECTION 11. Toxicological Information (Con't)

Product/Ingredient Name		Category
Ethanediol		Category 2
Target Organs : Cont	kidneys, heart, gastro	y cause damage to the following organs: ointestinal tract, upper respiratory tract, skin, central), eye, lens or cornea.
Aspiration Hazard	: Not available.	
Information on the likely routes of ex	posure	
Potential Acute Health Effects		
Eye Contact	: No know significant	effects or critical hazards.
Inhalation	: No know significant	effects or critical hazards.
Skin Contact	: Defatting to the skin.	May cause skin dryness and irritation
Ingestion	: No know significant	effects or critical hazards.
Over-Exposure Signs/Symptoms		
Eye Contact	: No specific data.	
Inhalation	: No specific data.	
Skin Contact	: Adverse symptoms n Irritation Dryness Cracking	nay include the following:
Ingestion	: No specific data.	
Delayed and Immediate Effects and A	lso Chronic Effects From	<u>Short and Long Term Exposure</u>
Conclusion/Summary	may cause irritation and vomiting. This ta effects and also chron	lable on the mixture itself. If splashed in the eyes, the liquid and reversible damage. Ingestion may cause nausea, diarrhea akes into account, where known, delayed and immediate nic effects of components from short-term and long-term alation and dermal routes of exposure and eye contact.
<u>Short Term Exposure</u>	1 ,	
Potential Immediate Effects	: There is no data avai	lable on the mixture itself.
Potential Delayed Effects	: There is no data avai	lable on the mixture itself.
Long Term Exposure		
Potential Immediate Effects	: There is no data avai	lable on the mixture itself.
Potential Delayed Effects	: There is no data avai	lable on the mixture itself.
Potential Chronic Health Effects		
General		o organs through prolonged or repeated exposure. Prolonged can defat the skin and lead to irritation, cracking and/or

SECTION 11. Toxicological Information (Con't)

Carcinogenicity	: Suspected of causing cancer. Risk of cancer depends on duration and level of exposure.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental Effects	: No known significant effects or critical hazards.
Fertility Effects	: No known significant effects or critical hazards.
Numerical Measures of Toxicity	

Acute Toxicity Estimates

Route	ATE Value
Oral	8750.6 mg/kg

SECTION 12. Ecological Information

Persistence and Degradability

: Not available

Bioaccumulative Potential

Product/Ingredient Name	Log Pow	BCF	Potential
Pentaerythritol	-1.69	1.26	low
Ethanediol	-1.36	-	low

Mobility in Soil

Soil/Water Partition Coefficient (Koc) : Not available

SECTION 13. Disposal Considerations

Disposal Methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should be not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PRESONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental Release Measures.

Product Code: 20-20A Black Product Name: Intumescent Fire Retardant Paint

SECTION 16. Other Information

Hazardous Material Information System (U.S.A.)

Health: 2 * Flammability: 1

(*) Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on MSDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is registered mark of the National Paint & Coatings Association (NPCA).

Physical Hazards: 0

The customer is responsible for determining the PPE code for this material.

National Fire Protection Association (U.S.A.)
